How to Use These in Your Course

- Beginner Level:** Adobe tutorials + Surfaced Studio

- Intermediate Level:** Motion Array + Envato + Cinecom

- Advanced/Vocational Skills:** Video Copilot + School of Motion

- Industry Exposure:** PremiumBeat + Lesterbanks

If you want, I can **design a full vocational curriculum (modules, projects, assessments, NSQF alignment)** for After Effects similar to your electrical safety course.

Give me link for learning python software

Here is a curated list of useful web links to learn Python programming, formatted with links + descriptions—suitable for your vocational course development.
